

SIMON FENSHOLM

Simon Fensholm, born 1985
MA, The Royal Danish Academy of Fine Arts, School of Design. 2015.

Simon Fensholm is a young Danish painter. His artistic universe takes its beginning with human's constant search for control in the uncontrollable context that it finds itself in. Intended or unintended. Fensholm's paintings represent a search for a constructed authenticity alongside the controlled chaos, that permits us to stay afloat and vulnerable. They define and underline what it is that makes us the perishable creatures that we are. The works of art can be experienced as if they are expressive documentaristic manifestations which establish a collaborative and collective portrait of the Modern mankind and the time that we live in. A time where the understated fragility and poesy is felt just underneath the surface.

The viewer is placed between the perfect and the imperfect. Between melancholy and hope. Right where the fog's grey ambiguity is felt the most. Between abstraction and figuration. This is the place where one finds the poetic and silent blue narration alongside the feelings that we hardly can translate.

"The paintings are like narrations from my inner self. A certain place inside my head where fantasy and all other thoughts can grow. A place where the impossible is possible and the possible a times seems to be very impossible." / Simon Fensholm
